JS, Redux Toolkit , Formik, Yup, JWT, BCrypt)

EXPERIENCE

Infodia Technologies - Noida

Mar-2021 - PRESENT

Work closely with programmers and directly interact with clients to meet project requirement, goal and desired functionality.

Created Re-usable component, Created custom hooks, Help Team members, Provide Training in Javascript and React Js.

Created a project like Netflix application. Where I have managed website development projects from initial design through completion, optimizing all cross browser and multi-platform compatibility.

Tech:(Html, CSS, React JS, Redux-Toolkit, Redux-Thunk, Formik, Yup)

Created a Project like Jio application. Where I have implemented form validation on signup and signin page with third party NPM package which is Formik - Yup. And manage the project state with redux.

Tech:(Html, CSS, React JS, Redux, Formik, Yup)

Working with existing Project like Security Management system. The project is totally based on Typescript and GraphQL for API integration. Here I have learned Typescript and GraphQL to enhance my skill stack and learned new things.

Tech:(Html, CSS, React JS, GraphQL, Context API, Typescript, Formik-material UI, Yup)
